# Teemu

Teemu is a timeless classic in the Tileri collection to smaller spaces. Teemu is a prime example of sleek Scandinavian design and with couple of design options you can make Teemu a minimalist focus point to your living room. You can go also to the other way by choosing a stylish brick surface and everybody will notice the fireplace. By choosing ceramic tile surface to your Teemu, you get a fireplace straight from the design magazines. You can finish your design by choosing the right hatches for you.

## Technical details

Despite the small size, Teemu is full of technical details, that make it a superior heater. Massive brick core stores heat efficiently and the Tileri Arina grates assures that all the energy is extracted from the wood. What remains from the wood, can be easily removed from the firebox e.g. with a vacuum cleaner. 87% efficiency rate is excellent and Teemu releases heat up to 38 hours.
